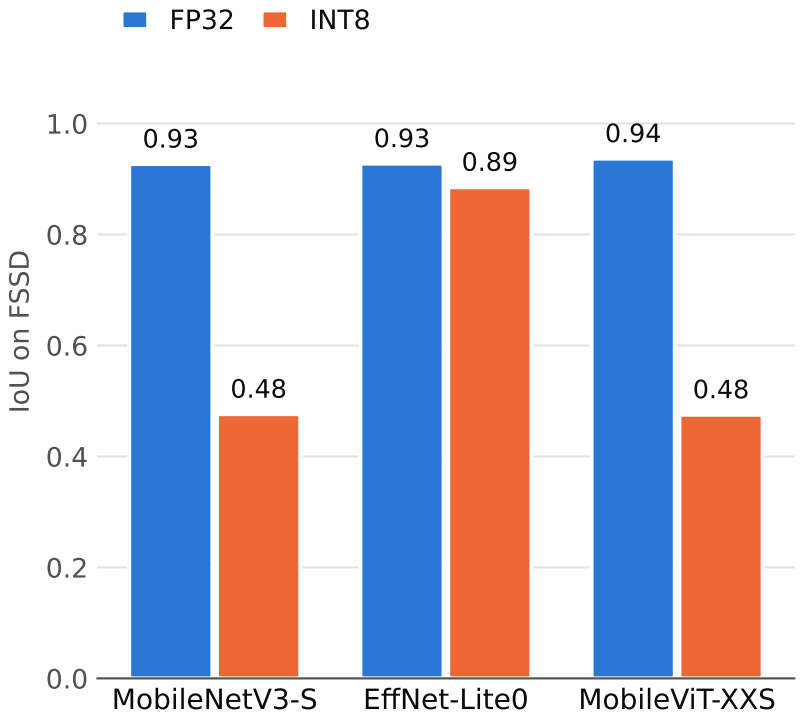
FloodLite: lightweight flood segmentation for CPU and browser deployment

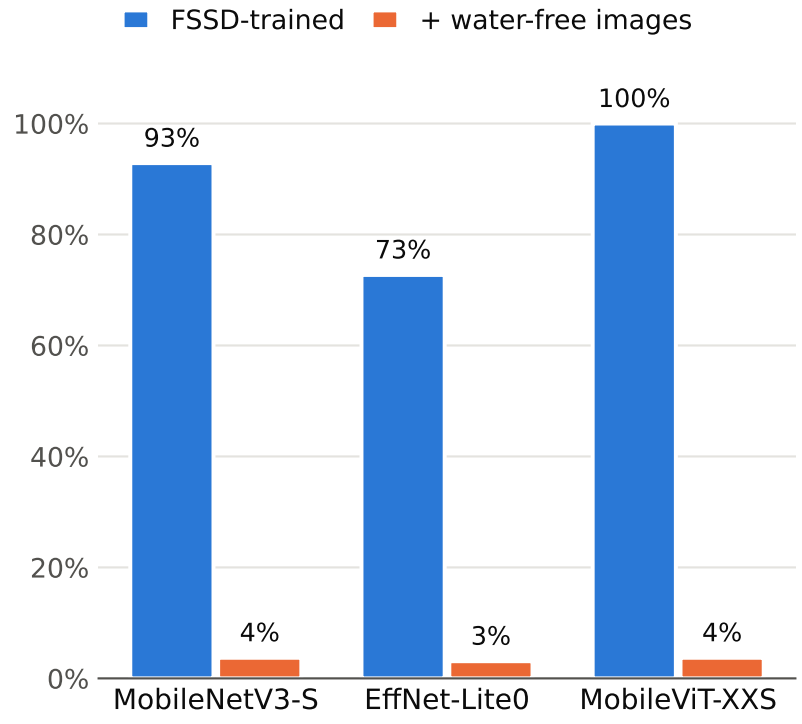
1 Deploy: INT8 must suit the backbone

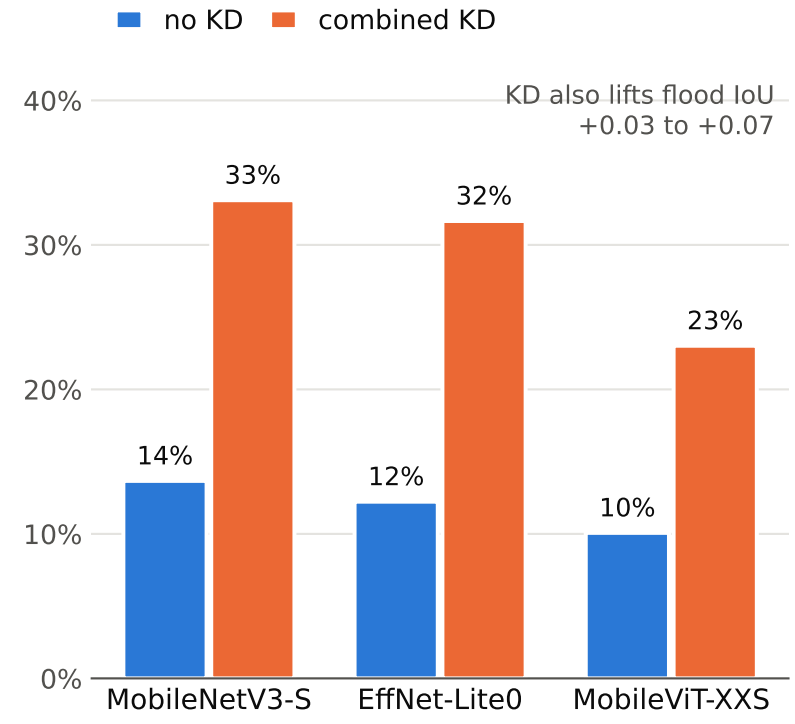
Lite0 INT8 runs at 58 FPS on a laptop CPU;
the other two collapse under the same recipe



2 Flood-only data cannot say “no flood”

Share of 215 dry FloodNet scenes with any
predicted water (no-KD students)



3 Distillation copies teacher errors


On dry scenes where the teacher false-alarms,
how often the student does too
